

## WRITING ASSESSMENT

G 7

Write your final composition here.

I think that we shouldnt go to the military for two years, why becuae what if thay are an only parent and the kid is very young. And say thay don't have anyone for the person. Another reason what if someone is going to get a nice job that thay been wanting for a long time and thay had to go to the military. That most up there chace of getting that job. Or say if you are in a job that you really like and if you ~~don't~~ go you will lose the job. What if you are going to a funeral for anyone in there family that was comeing up And you went to the military. See you can miss out on a lot of stuff when you are gone. That is what I think about this.

### Score Point: 2

This response reflects flawed proficiency in persuasive writing skills. The writer is clearly opposed to requiring all Americans to perform two years of military service. Key ideas are enumerated to support this position (single parent; lost job opportunity; lose a job; miss a funeral). There is very little development, and the response is weakly organized. In addition, there are serious errors in writing conventions.
